

THE
UNIVERSE
WITHIN

There are things that never change. The joy of creating. Respect for people. Attention to detail. The desire to make every project better than the last. These are the values that have shaped UNIKA from the very beginning.

Every year, as we begin developing a new collection, we don't simply ask ourselves what products we will create, but also what we want them to leave behind. Because an agenda is more than paper and leather. It becomes a place where ideas are born, decisions are made, and stories are written.

UNIKA ELEMENTS is about what lies beyond the products. It reflects the values that define us, the courage to evolve, and the relationships we have built over time with the people who have chosen to place their trust in us. For nearly two decades, we have been creating more than agendas and personalized products. We have been building partnerships. We listen to people, understand brands, and transform ideas into products that remain relevant long after they are created.

This catalogue is an invitation into our world. A world built with care, passion, and respect for detail, where every project begins with a conversation and ends with the confidence that we have created something truly meaningful.

Thank you for being part of this journey.

Nina Tudor
Founder, UNIKA

PROTECTED UNIT

More than a product.
A choice that creates value.

At UNIKA, we believe that the products we create can have an impact that goes beyond their functionality. Every agenda, every accessory, and every custom-made project reflects the same belief: quality and responsibility can go hand in hand. **We are the only Authorized Protected Unit in Romania with in-house production of premium leather agendas and promotional products**, offering companies a trusted partner capable of turning a legal obligation into a valuable investment with a meaningful social impact.

Choose premium products.
Support people.
Create value.

Why choose UNIKA – an Authorized Protected Unit?

In-house production

We oversee every stage of the process, from the initial concept to the final product.

Unlimited customization

We create unique projects tailored to the identity and needs of each brand.

Safety and compliance

You collaborate with both a manufacturer and an Authorized Protected Unit, ensuring a transparent and reliable process.

Real impact

Every partnership contributes to supporting employment opportunities for people with disabilities and to building a responsible business model.

Turn an obligation into an investment

If your organization has more than 50 employees and meets the conditions set by the applicable legislation, you can redirect a part of the funds owed toward purchasing products and services created by an Authorized Protected Unit. In this way, you invest in products your company needs while supporting a genuine social impact at the same time.

THE ELEMENTS OF AN AGENDA

**A UNIKA agenda is
more than just a cover.**

It is a combination of carefully selected elements that can be configured and customized to achieve the perfect balance between functionality, aesthetics, and the company's visual identity.

ORIGIN

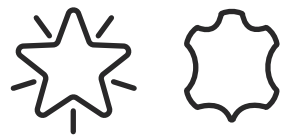

Everything begins
from within.

UNIKA was born from the belief that the objects we use every day can tell a story. Every collection starts from the same origin: the desire to create products that inspire, organize, and remain relevant over time.

• EVOLUTION

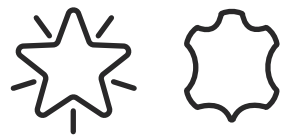

Every step has
brought us closer
to who we are
today.

We evolve through new ideas, carefully
selected materials, and solutions created
for the present. Innovation does not
change who we are; it helps
us continuously improve
the way we create.

TOGETHER

Universes come together to create something new.

Every customized project begins with a conversation. Our experience meets our clients' vision, and together we create products that reflect the identity of each brand.

When a project becomes an experience.

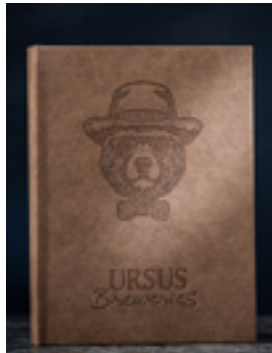

Every element of this project was developed specifically for the URSUS identity.

The materials, personalization techniques, interior, and packaging were integrated into a unified concept, demonstrating that a customized product can tell a story as powerful as the brand it represents.

(01)

(02)

(03)

Elegance lies in simplicity.

For UniCredit Bank, we developed a project where minimalist design and subtle personalization define the entire experience.

The cover with hot stamping, the brand-specific color accents, the customized interior, and the finishes were integrated into a coherent concept designed to reflect the company's professionalism and visual identity. An example of how every detail can transform a functional product into an authentic expression of a brand.

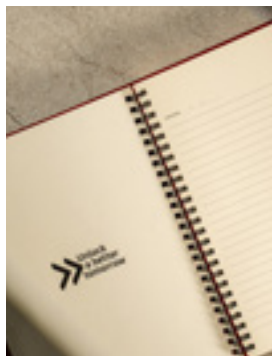

(01)

(02)

(03)

UNIKA x YOU

The next project could be yours.

Every brand has a story, and every project begins with an idea. From materials and design to interiors, finishes, and customized packaging, we develop products created exclusively for each client's identity.

Regardless of the industry or project complexity, we transform your vision into a memorable object, crafted down to the smallest detail.

You imagine it. We create it.

LIMITED COLLECTION

by Nina Tudor

To celebrate 18 years of creativity, authenticity, and stories written over time, we launched in 2025 a limited-edition anniversary collection consisting of three agendas, each bearing the signature of the founder, Nina Tudor.

Crafted with exceptional attention to detail and featuring deeply personal symbols, these agendas are more than just objects; they are visual statements about UNIKA's journey, where it began, what guides it, and where it is heading.

Opportunities appear
wherever your steps
take you!

An agenda that tells a story about the power of staying connected to your essence, your core values, and the people who matter. In business, as in life, you cannot grow without a solid foundation. Roots are the values that keep you grounded, even when the wind is strong.

For me, these roots have meant authenticity, balance, and respect for the people who have been part of this journey. Keep growing constantly, with steps untouched by time, and have the strength to remain connected to what truly matters.

(03)

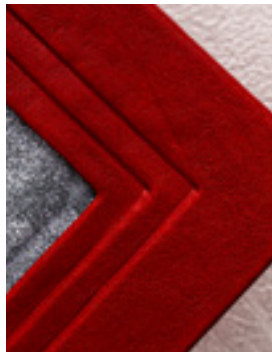

You can only climb
as high as your mind
allows you to go!

One step at a time, one level after another,
that is how a solid path is built. With
perseverance, patience, and inner peace.
In business, as in life, evolution does not
happen through sudden leaps, but through
constant and meaningful steps.

I know that true success is measured by
who you become, not by what you achieve.
Forget the word “limit”, keep your respect for
people, and remain a traveler on the path of
self-discovery.

Nina Tudor

(03)

Create your own path,
no matter where it leads!

This agenda speaks about the power of looking beyond, setting your own milestones, and allowing yourself to be inspired by the universe. Over these 18 years, vision has been my guiding light, keeping the direction and belief that I could transform UNIKA into a meaningful story.

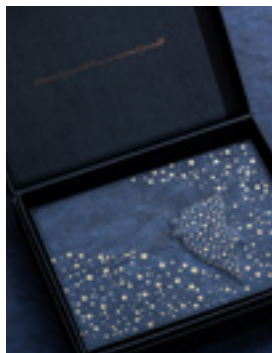

Navigate the unknown with confidence, follow your dreams wherever they may take you, set your direction, and let yourself be guided by your inner voice.

● CORPORATE GIFTS

Gestures that
stay in your
memory.

Corporate gifts are more than
just simple objects; they are
an expression of appreciation,
relationships built over time, and
your brand identity.

CORPORATE GIFTS

Every detail carries your brand identity.

A well-chosen corporate set conveys attention, appreciation, and professionalism before the first word is spoken. Each product is selected to create a harmonious ensemble, and every detail contributes to a memorable experience.

From product and packaging selection to premium finishes and the message conveyed, each set is designed to reflect your company's identity. The box, products, greeting card, and all elements that make up the set can be fully customized, transforming every gift into an authentic brand experience.

CHRISTMAS GIFTS

The holidays are about gratitude and connections.

Christmas is the moment when gestures gain a special meaning. Our corporate sets bring together premium products, elegant packaging, and extensive customization possibilities to express appreciation in an authentic way.

Each collection is created to celebrate partnerships, strengthen relationships, and bring joy to those who contribute to your brand's success. From the gift box and the products inside to the greeting card, ribbons, and the smallest details, every element can be customized to create a complete and memorable brand experience.

PERSONALIZATION, INTERIORS AND PACKAGING

Design goes beyond
the product.

Every project begins with an idea and is built through details. Cover personalization, the creation of a dedicated interior, choosing the right branding technique, and developing premium packaging are steps that transform an object into a communication tool. Together, they create a complete experience, built around your brand.

BRANDING

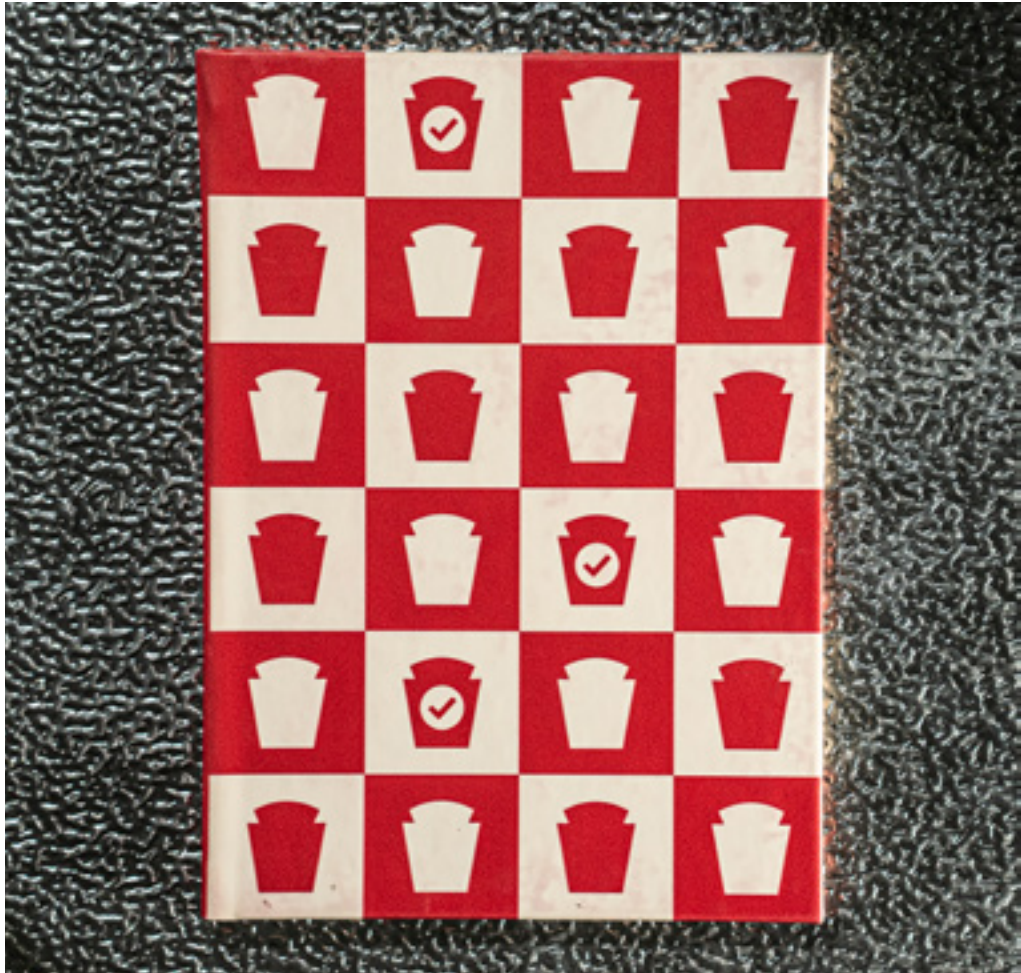

- Personalization Methods

(01) **HOT STAMPING**

(02) **FOIL STAMPING**

(03) **UV PRINTING**

(04) **EMBOSS**
